Bill Introduced in the House of Commons for the Suppression of the Irish League.

Meeting of the Parnellites at London-Latest Phase of the Graco-Tarkish Difficulty.

LONDON, January 26 .- The Parnellite members of Parliament held a meeting last night to discuse Lord

Salisbury's statement regarding the government's Irish programme.

The Studard says: "It is stated that several Whig leaders contemplate an amendment to the address, assuring the Queen of their support of all measures which she deems necessary to maintain the peace of Ireland and preserve the union."

It is reported that the Parnellites have decided to debate Mr. O'Brien's

amendment in a week, and also to support Mr. Collings's amend-ment to the address on the sub-ject of allotments. This will likely re-sult in the defeat of the government. government has consented to modify the new procedure rules so as to provide that the House of Com-mons shall meet at 4 and adjourn by 1 o'clock, abolishing the proposed

WHIPPING UP THE TORIES. An urgent appeal has been issued by the Tory whip to the Conservative members of Parliament to be present to participate in the divisions to take place to-night, as a defeat will involve the resignation of the Cabinet. IN THE COMMONS.

Sir Michael Hicks-Beach, the Conservative leader, gave notice in the clouse of Commons this afternoon that the government would introduce on Thursday a bill to suppress the Irish National League and other dangerous societies, to prevent intimidation, to protect life and property, and to main-tain public order in Ireland. This annonncement was greeted with loud cheers. Sir Michael said he would ask the House to give the bill pre-cedence. He added that this measure would be followed by a bill dealing with the Irish land question on the lines of policy indicated by the land purchase act of last session.

GREECE AND TURKEY. The Possibility of a War Between the Two Countries,

LONDON, January 26.—The Greek Minister has been interviewed in reference to the possibility of war be-tween Greece and Turkey. ARMOUR'S FAITH IN ST. PAUL. Remarkable Expressions of the Millionaire Quoted in Wall

New Yerk, January 26,-The directors of the St. Paul railroad met last Saturday. President Mitchell, Phil D. Armour and other Chicago directors attended the close of the meeting. President Mitchell said the directors had done nothing but to ad-journ until 1 o'clock Monday, and he really didn't know exactly what had been discussed, as he had not been much interested in the proceedings. Mr. Armour, in response to a card, sent out a similar answer.

Previous to the meeting a statement Mr. Armour was issued in Wall

THE OHIO SENATES.

Both Sides buill solding Out and Unwilling to Make Concessions.

COLUMBUS, O., January 23.—The situation in the Ohio Senste trouble was quiet to-day. Suggestions came from both sides looking to a compro-mise, but nothing definite nor any mode of procedure has been agreed upon. Neither side is willing to be known as outwardly proposing a com-promise, and for this reason the reports of a settlement may not be of any consequence. The Republicans claim to be firm in their position, and that they will agree to nothing except it includes immediate proceeding under the rules they adopted last evening for the disposition of the Hamilton county contest cases in open Senate. The Democratic Senate is credited with a proposition that a spe-cial committee be appointed of equal membership politically for the hear-ing of the contest cases. The Repub-licans say they will not entertain this suggestion, even if it should come in regular form. The Democratic Senators met in caucus at 10 o'clock this morning, and were in session several The Republican Senate met at 10 o'clock, with the Lieutenant-Governor in the chair. All the Republican members were present and none of the Democrats. The journal of the day previous was read and declared about one hour and adjourned to to-morrow morning. There was no excitement and only a few spectators were present.

The Democratic caucus accomplished nothing except to resolve on a solid front, and that they will go into the Senate chamber at 4 o'clock p.m. to-morrow, the time to which they ad-

Discovery of Extensive Gold Fields in the Little Republic of Honduras.

The New Diggings Said to Equal the Best Placer Districts of California.

CHICAGO, ILL , January 26 .- A local paper publishes a long article this morning announcing the discovery of rich gold fields in the Republic of Honduras. It appears that some alx months ago James Rector, Milligan, Col. Pat Donan of Dakota and three others from Indiana made up a pool and sent Rector and another man, an old California prospector, to Honduras to examine and report upon a new placer gold field, which was alleged to have been found in the southeastern part of that little Republic. Ever since November there have been rumors affoat that the alleged discovery was confirmed, and that it had proved to be a most important one; but the pro-jectors of the expedition at home would say nothing about it. Now, however, the ban of silence is removed, and with the arrival of full particulars both by cable and mail, and also the receipt of a little bag of \$22 in dust, the importance of the find is no longer concealed. Already Mr. Milligan of Farge, Dak., has gone to Hon-duras. Col. Donan will follow in a few weeks, and several other parties of Western men are making ready to start for the new Eldorado. Mr. Rector, who has been on the ground since last summer, and who is known as a prudent and cautious man and one possessed of unusually hard sense, writes to his friend here that the discovery is likely to prove as important a one as any of the

GREAT PLACER DISTRICTS OF CALIFORNIA. The new field lies in the eastern portion of the Republic of Honduras, and about 150 miles from the Atlantic coast. The placers are in and adjacent to the headwaters of the Guayape river, which is one of the tributary streams of the Rio Patuca, a region long known for its mineral res Mr. Rector and party have explored the stream and its gravelly bottom for nearly fifty miles, and have found scores of places where the gravel fields from 10 to 80 cents to the pan. They have bogun regular mining, however, in a place where, after much toil, they succeeded in turning the river from its native bed. Here they dug down, and are sluicing out from \$7 to \$10 a cubic yard, a yield fully equal that of the best placer's diggings in California. The bed of the river they have reclaimed covers many acres in extent, and under the laws of the republic they can lay claim to it all. The facilities for placer mining are unsurpassed. The gold which has been sent up was exhibited to a few select parties in this city yesterday. The particles are of all sizes, from mustard-seed grains to

NUGGETS AS BIG AS BIRDS' EGGS. One nugget was found valued at \$115. Rector believes that the bed of the stream for nearly its whole length, together with the sand and gravel bars adjacent are rich in gold. The government of Honduras, it is said, is very liberal to miners, let them come from where they may. It requires no citizenship to work mineral land, and there is a very large margin allowed as silver mining has long been an established industry in the region of the Rio Patuca, but the in rtness of the people, the apparent remoteness of the country and the lack of adequate capital has prevented anything like systematic work. It is stated that mining men from the West who are at present in Chicago, are watching with keen interest the Honduras developments, and that if the news which the Rector party has sent shall be further confirmed there will be quite a stampede for the new region. The country is described as healthful, entirely free from malaris, and the temperature ranging in the foot hills of the mountain ranges where the olscers are to be found at from 45° to 75° the year round.

LITERARY NOTES.

By the burning of a book-bindery in New York a few days ago all the sheets of the edition de luxe of "Sport with Gun and Rod," except a few which had been removed, were destroyed. The edition cannot be duplicated.

The January number of The Century is out of print, and a new edition of 5000 copies is on the press. The publishers have had to increase the edition of the February Century, since it has been printing, on account of the extra demand for this "Midwinter" number. The editors sent in word to the publishing department a few days ago that "if the public only know how good the February number is going to be, the large edition (considerably over 200,000) would be exhausted on the day of issue."

MR. Howells has turned upon his critics. If they do not like his theory of the novel the trouble is that they are either too old to accept a fresh idea or too young to think for themselves. "The critice," he says in the February Harper, when they are not elders ossified in tradition, are apt to be young people, and young people are necessa-rily conservative in their tastes and theories. They have the tastes and theories of their instructors, who perhaps caught the truth of their day, but whose routine life has been alien to any other truth."

GILLIG'S LONDON GUIDE is a book that visitors to the world's capital will find to be a perfect vade mecum. is all that its title purports it to be and more, for it gives glints of the history and romance with which everything in and about London is invested. Mr. Gillig's task was one evidently con amore for, he has imparted to the pages of his little work all the spirit and interest, the enthu-sias with which he views the city in which he has made so delightful a home for Americans. And this home, let us say, by the way, is fully described and handsomely illustrated. It is a home where all Americans may meet and where they can find every accommodation that our best appointed hotels are capable of, and all the leading daily papers of the United States. For this alone Mr. Gillig deserves the thanks, and, what is more, the patronage, of every American who goes abroad.

The February issue of the Overland Monthly will be published January 28th. Its announcements indicate a number of special interest and great variety. It will contain a continua-tion of the discussion of Chinese labor, which attracted so much notice in the last two numbers, including, prob-

ably, a parer from one of the leaders of the Tacoma anti-Chinese movement, and certainly a paper from John S. Hittell. A consideration of the German expatriation treaty question, by A. A. Sargent, late Minister to Berlin, is promised for Jacuary, and positively for February. Several very important historical and descriptive California articles are announced; one is a description of an almost unknown a description of an almost unknown a description of an almost unknown region in Siskiyoit county, known as the "Marble Mountain Country;" there is a second installment of the widely-copied "Lost Journal of a Pioneer;" lastly, a paper on the "Old Regime in San Francisco," by Prof. Barnard Moses of the State University, who has lately made a study of early California alcaldes, even spending several months in Mexico for further light on the subject; his present paseveral months in Mexico for further light on the subject; his present pa-per is apropos of Mr. Hittell's volume on Spanish California. A very com-petent critical estimate of Mr. Edgar S. Kelley's "Music of Macbeth" is also to be in the number, beside the periodic review of new novels and verse. Charles Warren Sæddard is to be among the poets of the number.

The opening article in the Southern Birounc for February is by Judge A. E. R chards, "Bass Fishing in the Shenandoah." Judge Gayarre tells of an interview on Reconstruction, held in 1866, with William H. Seward, Gen. Liddell's Record of the Civil War is continued. The article which robably attract most attention is "My Impression of Gen. Robert Eiward Lee," by Alexander H. S. ephens. It is accompanied by an unfamiliar portrait of Gen. Lee taken from an early photograph. Will. Wallace Harney begins a story of life in Florida during begins a story of life in Florida during the reign of the carpet-bagger. Louis Pendleton tells "The Story of Black Dan," a runaway slave. Richard W. Knott has an article on "Poetry and Criticism." Gen. Gilbert concludes his account of "Bragg's Invasion of Kentucky," and W. H. Swallow de-scribes the disastrous charge of "Long-etreet's D.vision at Gettysburg." Paul H. Hayne has some atrong lines on H. Hayne has some strong lines on "Robert Lae," Clinton Scollard contributes "Under the Magnoliss," a descriptive poem; and there are poems by Henry Austin and "S. G."
